

NEMESIS ASPHALT CO LTD

NEMESIS Asphalt Co Ltd was established as an independent company of the Nemesis Group in 2003 having evolved from being the production and asphalt laying department of Nemesis Contracting PLC. Today it has become one of the two biggest companies in the production and laying of asphalt in Cyprus as well as a “Class A” contractor of infrastructure projects.

The company has made significant investments in specialized machinery and owns two Asphalt Plants, its own machinery for the laying of asphalt and a separate unit of production of cold asphalt. It employs experienced and qualified personnel and owns the necessary infrastructure and technical support such as laboratory and maintenance team.

In 2008 the Company created a new company for asphalt production, called Medcon Nemesis Asphalt Ltd, in partnership with Medcon Constructions Ltd another Cyprus contractor. This company, in partnership with others created a third company called Medcon Kythreotis Nemesis Asphalt Ltd. This Company operates brand new unit of asphalt production near Limassol.

With this strategy the Company is further established in the market and covers a wider geographical area.
